EVOLITE

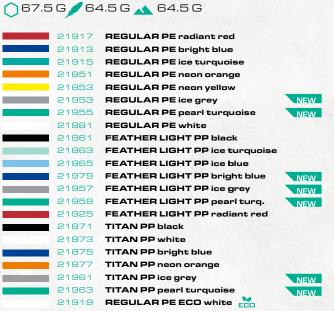

In the spring of 2024 we dropped our new **EVOLITE** blade, following in the footsteps of the successful **UNILITE** blade. The new blade has a reinforced construction for added strength and it has also been slightly increased in size, and we have made sure to give it the same sensational touch and playability as its predecessor.

UNILITE is our lightest blade ever. The construction is designed to cut unnecessary weight but still keep the torsional strength of the blade as well as the great playing characteristics. The result is a brand-new shape and bar system with medium pre-hook and concavity, combined with a clearly marked step between the frame and the playing surface for great ball control and shot release.

EPIC is an ultra-modern floorball blade with state-of-the-art design combined with top class functionality. The frame has a classic Unihoc shape and with its clearly marked step between the frame and the bars it offers great ball control and improved shot release.

ICONIC is a shooting blade from Unihoc. This is the most aggressive blade in our collection, totally focused on optimizing the shooting qualities of the players. The blade has a distinctive concavity along the entire playing surface, starting immediately at the heel of the blade and running all the way to the tip. This concavity improves the ball handling by giving a great grip on the ball, and at the same time it adds extra power in the shot release.

GRIPBANDS

The grip is the final link between the hands and the stick and it is very important to make the right choice. The range is wide and you have to decide whether to go for tackiness, durability, low weight, thickness or color.

SUBLIMATION

Now you can customize your own unique design for the **PHOENIX ECO** set by using **SUBLIMATION TECHNOLOGY**. This means that you can create your team's match set exactly as you want it in terms of colours, logos, player names and numbers. The design is sublimated into the fabric, which gives a soft garment without any printed transfers on it.

UX GOALIE is a modern goalie shoe that has been developed with mobility and comfort in mind. The new shoe has been developed as a combination of very strong and durable materials to create the perfect lightweight shoe for the modern goalkeeper.

The shoe is loaded with several special features such as the Slide Control Area, the Flexi Shank and the Lace Cover System. The dual outsole system makes the shoe very versatile and with a brand new design that will match any goalie set the new **UX GOALIE** model is sure to be a corner stone in our shoe collection.

SHOES

CORDURA

U4PLUS

LIGHTWEIGHT

STABILITY
LIGHTWEIGHT
CUSHIONING

The **U4 PLUS** is a light performance shoe especially designed for floorball. The upper construction is made of breathable mesh for added comfort and cooling, and in combination with the printed hotmelt areas it gives a very modern floorball shoe with an optimized fit.

This technically crafted shoe offers all the benefits that a floorball shoe needs, such as low weight, excellent medial and lateral support, as well as great durability.

The **U3 JUNIOR** indoor shoe is the perfect model for the youngest players. This is a classic shoe model developed with strength and stability in focus. Strong micro fiber mesh has been used for the upper construction to give breathability and low weight, and in combination with a robust layer of PU the shoe is certain to offer both durability and comfort to match the high demands of the floorball game. The added U-frame along both sides ensures a strong construction and stability. The rubber outsole is made of non-marking rubber with excellent grip on the playing field.

FLOORBALL RINK PREMIUM

The **PREMIUM RINK** sets a new standard for floorball rinks in terms of sustainability, materials and design. We have gathered a lot of information from our teams and federations to create the best floorball rink out there. The demands are always increasing along with the growth of the sport, and that is why we are very proud to present this high end rink to the market. The rink has 6 mm thick walls made of polypropylene (PP) plastic material. The PREMIUM rink model comes with substitution zones clearly marked in white top rail colour.

RINK PREMIUM BLACK COMPLETE 40X20M

57951

RINK PREMIUM BLACK COMPLETE 24X14M RINK CAN BE CUSTOMIZED ACCORDING TO REQUIRED MEASUREMENTS.

RINK PREMIUM SPLIT SYSTEM

The SPLIT SYSTEM™ is developed as a complement to the PREMIUM and BASIC rinks, to make it possible to divide the gymnasium into several smaller playing fields. The SPLIT SYSTEM™ consists of 4 pcs of corner parts, 14 pcs of 2.5m parts and 2 pcs of 1.5m parts (40x20m rink). A full-size playing field can thus be divided into 3 smaller fields as illustrated above. 57980

FLOORBALL RINK B A S I C

The **BASIC** sets a new standard for floorball rinks in terms of sustainability, materials and functionality. This BASIC rink model has slightly thinner walls than the PREMIUM model, which gives it not only a reduced weight but also a lower price. This rink model comes in solid black colour with no deviating contrast colour for the substitution zone top rails.
